

Joint Action Health Workforce
Planning and Forecasting

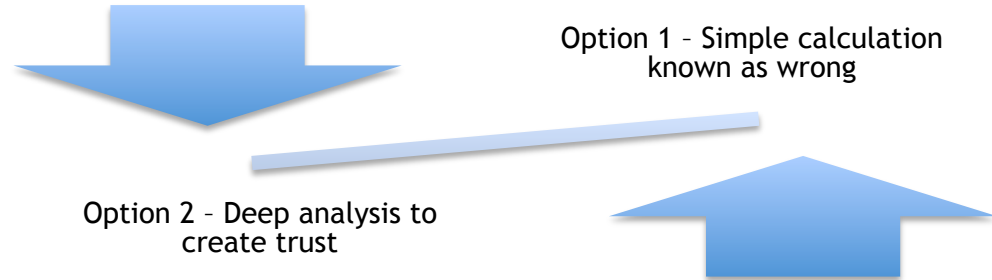

WP6

Packaging a complex system for a high quality political debate

Is forecasting worth the investment, while:

- Data quality is disputed
- Models and reports are not understood
- Qualitative criteria and singularities are put forward to invalidate the proposals

2 options

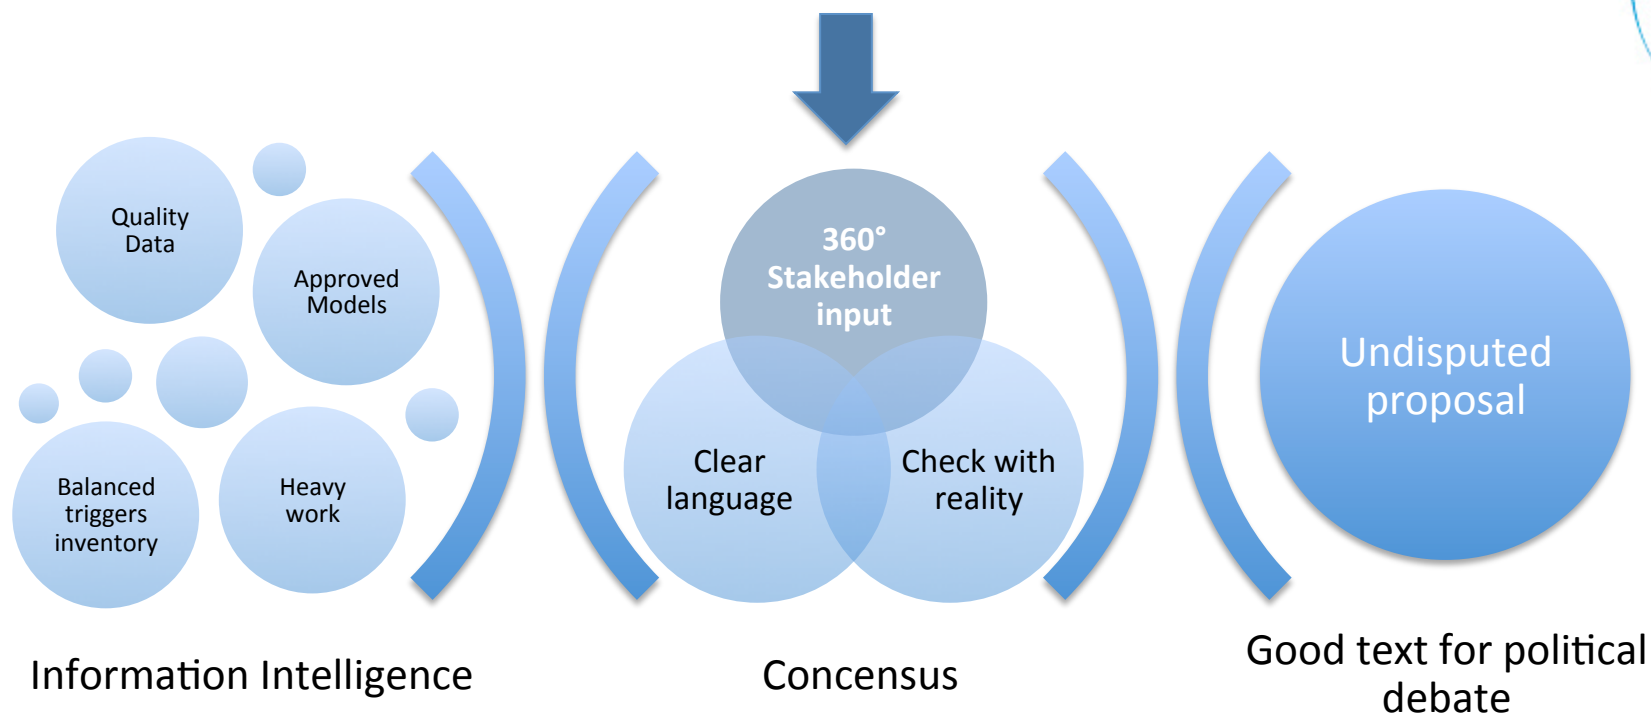

M. Van Hoegaerden, Programme Manager

JA WP6 Workshop
London, January 10th, 2014

Funded by
the Health Programme
of the European Union

Helping policy makers to drive our society through sustainable, well documented decisions is our strategic goal

WP6 will demonstrate the feasibility and value of producing high quality, 360° wide, policy support analysis on Health Workforce
