

*“My paediatrician has moved to Texas, my dentist to Dubai and my optician to Stockholm...”*

Greek woman quoted by Symons (2012)

Health professional mobility in Europe has become a fast-moving target for policy-makers. It is evolving rapidly in direction and magnitude as a consequence of fundamental change caused by European Union (EU) enlargement and the financial and economic crisis.

Health professional mobility changes the numbers of health professionals in countries and the skill-mix of the workforce, with consequences for health-system performance. Countries must factor in mobility if they are forecasting and planning their workforce requirements. To this end they need clarity on mobility trends and the mobile workforce, and effective interventions for retaining domestic and integrating foreign-trained health workers. Health professional mobility remains an unfinished agenda in Europe, at a time when the repercussions of the financial crisis continue to have an impact on the European health workforce and its patterns of mobility.

This book sheds new light on health professional mobility in this changing Europe. It is the second volume of the PROMeTHEUS project, following the previously published country case study volume. The 14 thematic chapters in this book are grouped in three parts:

- the changing dynamics of health professional mobility
- the mobile individual
- policy responses in a changing Europe.

The book goes well beyond situation analysis as it presents practical tools such as a yardstick for registry methodology, a typology of mobile individuals, qualitative tools for studying the motivation of the workforce and a set of concrete policy responses at EU, national and organizational level including bilateral agreements, codes and workplace responses.

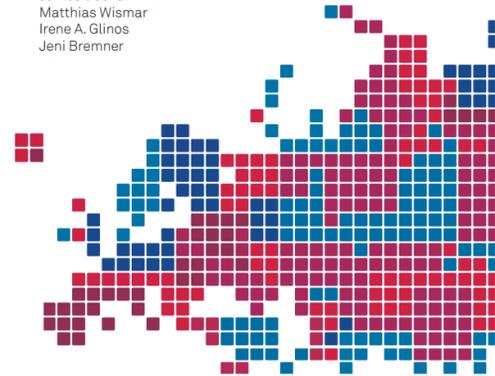

## Health Professional Mobility in a Changing Europe

Studies Series

New dynamics, mobile individuals  
and diverse responses

VOLUME II

Edited by  
James Buchan  
Matthias Wismar  
Irene A. Glinos  
Jeni Bremner

**Sound-bites from Professor Buchan's book launch  
presentation 26 May 2014, Brussels:**

- You cannot be "isolationist"...
- You (almost certainly) do not have all the data and analysis you need to be to be effective in monitoring and managing mobility
- You are increasingly "connected" with other labour markets
- Migration/mobility cannot be "solved" as a stand alone policy challenge:
- You must develop and share strategic intelligence beyond your own system and country
- It is unfinished (and often untested) business but there are sets of general workforce policies and workforce mobility policies that help

<b>Part I Setting the scene, key findings and lessons</b>	<b>1</b>
Chapter 1 Introduction to health professional mobility in a changing Europe <i>James Buchan, Irene A. Glinos and Matthias Wismar</i>	3
Chapter 2 Health professional mobility in a changing Europe: lessons and findings <i>Irene A. Glinos, James Buchan and Matthias Wismar</i>	17
<b>Part II The changing dynamics of health professional mobility</b>	<b>33</b>
Chapter 3 The economic crisis in the EU: impact on health workforce mobility <i>Gilles Dussault and James Buchan</i>	35
Chapter 4 Mobility of health professionals before and after the 2004 and 2007 EU enlargements: evidence from the EU PROMeTHEUS project <i>Diana Ogyranova, Claudia B. Maier, Matthias Wismar, Edmond Ginsek and Reinhard Busse</i>	65
Chapter 5 Monitoring health professional mobility in Europe <i>Claudia B. Maier, James Buchan, Matthias Wismar, Diana Ogyranova, Edmond Ginsek, Eszter Kovacs and Reinhard Busse</i>	95
Chapter 6 Health professionals crossing the EU's internal and external borders: a typology of health professional mobility and migration <i>Irene A. Glinos and James Buchan</i>	129
<b>Part III The mobile individual</b>	<b>153</b>
Chapter 7 Health professional migration in Lithuania: why they leave and what makes them stay <i>Zilvinas Pudaiga, Marynas Pukas and Liudvika Starkienė</i>	155
Chapter 8 Motivations and experience of health professionals who migrate to the United Kingdom from other EU countries <i>Ruth Young, Charlotte Humphrey and Anne Marie Rafferty</i>	177
Chapter 9 Why do health professionals leave Germany and what attracts foreigners? A qualitative study <i>Diana Ogyranova, Ruth Young, Claudia B. Maier and Reinhard Busse</i>	203
Chapter 10 "I am kind of in stalemate". The experiences of non-EU migrant doctors in Ireland <i>Niamh Humphries, Poy Bidwell, Ella Tyrrell, Ruairi Brugha, Steve Thomas and Charles Normand</i>	233
Chapter 11 A multi-country perspective on nurses' tasks below their skill level: reports from domestically trained nurses and foreign-trained nurses from developing countries <i>Luk Bruyneel, Baoyue Li, Linda Aiken, Emmanuel Lesaffre, Koen Van den Heede and Walter Sermeus</i>	251
<b>Part IV Policy responses in a changing Europe</b>	<b>267</b>
Chapter 12 The unfinished workforce agenda: Europe as a test-bed for policy effectiveness <i>Diana Ogyranova, Evgeniya Plotnikova and Reinhard Busse</i>	269
Chapter 13 Policy responses facilitating mobility or mitigating its negative effects: national, EU and international instruments <i>Sherry Merkur</i>	301
Chapter 14 The role of bilateral agreements in the regulation of health worker migration <i>Evgeniya Plotnikova</i>	325
Chapter 15 Creating good workplaces: retention strategies in health-care organizations <i>Elisabeth Jelfs, Moritz Knapp, Paul Giepmans and Peter Wijga</i>	345
Chapter 16 Lessons from retention strategies outside Europe <i>Carmen Mihaela Dolea</i>	367
